

AT-SP3X

Powered Bookshelf Speakers

Overview

Perfect for use with turntables, computers, smartphones or other devices, the AT-SP3X powered bookshelf speakers deliver rich, full-range audio via a wired or wireless connection. These compact, unobtrusive speakers elevate the listening experience in any room. They feature 3" woofers and 1.1" tweeters specially tuned by a built-in DSP to produce powerful, well-balanced sound for music, movies, and more.

Powered by the included AC adapter (which comes with three adapters for international use) and joined by a long 6.6' (2.0 m) speaker cable, the speakers are easy to set and use in any space – requiring no external receiver or amplifier. Devices connect directly to the speakers' dual RCA jacks or wirelessly via Bluetooth® technology. A power button with LED indicator and volume control dial keep operation simple.

/ Small Size, Big Sound

An Elevated Listening Experience

Despite their small size, the AT-SP3X bookshelf speakers pack a big punch. They are specially tuned to deliver rich, full-range audio that's powerful enough to fill any room in your house.

/ No Receiver/Amplifier Required

Easy to Use

The AT-SP3X speakers are designed to work on their own with no receiver or amplifier required. Simply connect the speakers to your turntable, computer, or other device, then plug in the AC adapter, and you're good to go.

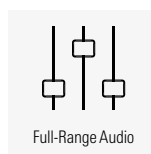

/ Ideal Audio Solution for Any Room

Wired or Wireless Connectivity

With dual RCA jacks and Bluetooth technology, the AT-SP3X speakers allow you to establish a wired or wireless connection to your turntable, computer, smartphone or other device, and set up wherever you like. The minimalistic design makes the speakers perfect for any room.

Features

- Compact bookshelf speakers are specially tuned to deliver impressive, full-range audio
- Speakers are equipped with dual RCA jacks for wired connection and Bluetooth technology for wireless connection
- Simplified powered speaker setup does not require an external receiver/amplifier
- Ideal audio solution for turntables, PCs, smartphones, and other devices
- Multipoint pairing function allows you to stay connected to two Bluetooth devices at once
- Minimalistic design suits any room
- Power button with LED indicator and volume control dial provide easy operation
- Includes an AC adapter with three international plug adapters and a 6.6' (2.0 m) speaker cable

Powered Bookshelf Speakers

Specifications

Speaker Unit	76 mm dia. x 2
Tweeter Unit	27 mm dia. x 2
Frequency Response	65 to 20000 Hz
Maximum Output	30W
Communication System	Compliant with Bluetooth standard Ver. 5.3
Maximum RF Output	10 mW EIRP
Maximum Communication Range	Line of sight - approx. 10 m (33')
Frequency Band	2.4 GHz band (2.402 GHz to 2.480 GHz)
Modulation Method	GFSK, Pi/4DQPSK, 8DPSK
Spread Spectrum Method	FHSS
Compatible Bluetooth Profiles	A2DP, AVRCP
Supported Codec	SBC
Supported Content Protection Method	SCMS-T
Supported Sample Rates	44.1 kHz, 48 kHz
Supported Bit Depth	16 bit, 24 bit
Transmission Band	20 to 20000 Hz
Input Jack	Analog audio input terminals (RCA pin plug x 2)
Speaker Cord Length	2.0 m (6.6')
AC Adapter Cord Length	1.2 m
Power Supply	AC100-240V / DC18V (using supplied AC adapter)
External Dimensions	200 mm x 113 mm x 145 mm (H x W x D) (excluding protrusions)
Weight	Approx. 1.5 kg (L side), Approx. 1.6 kg (R side)
Operating Temperature	5°C to 40°C (41°F to 104°F)
Included Accessories	AC adapter, AC adapter replacement plug x 4, speaker cable (for L/R connection), rubber foot x 8
Sold Separately	AC adapter, AC adapter replacement plug x 4, speaker cable (for L/R connection), rubber foot x 8
