- Ideal for New Build and Refurbishments in toilets, bathrooms, en-suites, utility rooms and kitchens (adjacent to hob)
- Surface or recessed, portrait or landscape
- Simple replacement of existing Loovent - same mounting and spigot position
- Economical to operate - from 2.8 W
- Timer and humidity timer versions
- SELV versions - low voltage
- Voltage supply 100 / 240 V - 50 / 60 Hz
- IPX5 rating
- Complies with Building Regulations
- SAP eligible
- 5 year warranty

The next generation...

The dMEV continuous ventilation versions are the ideal solution for maintaining the perfect air quality in the domestic home. The LOOVENT eco dMEV versions with timer and humidity timer functionality are SAP eligible, making them perfect for the new build market.

The trickle rate should be selected on installation depending on the application - 7 l/s for toilets, 9 l/s for bathrooms / en-suites / utility rooms and 16 l/s for kitchens. Boost speed is activated by the pull cord, humidity sensor or a remote switch (light / door switch).

Boost speeds are 15, 15 and 31 l/s respectively. The pre-set run on timer period will apply and revert back to the trickle speed after this time.

LOOVENT eco is ideal for replacing the old Loovent 01C or existing Loovent 01 as the spigot position is identical and the back plates are the same size keeping reworking to a minimum.

MODELS

Timer / SELV T	Timer can be set to run on between 2 and 45 minutes
Humidity Timer / SELV HT	Humidity sensor can be set between 40 - 90% RH
