

# Roof Terminals

Ø125 mm – Ø630 mm

slate/terracotta for exhaust or supply air

## KEY FEATURES

- Durable metal exhaust or supply solution
- Reinforced flexible metal flashing
- Slate / Terracotta colouring to blend in with the surrounding roof and remain unobtrusive
- Ø125 mm to Ø630 mm airtight connections
- Easy to install
- Adapts to all tile types

Roof terminals are a superior solution for both exhaust and supply air installed in systems that use mechanical ventilation with heat recovery, MEV systems, air handling and conditioning systems, cooker hoods. The roof terminals are an attractive slate/terracotta colour to blend in with the surrounding roof. They also feature a reinforced but flexible metal sheet flashing to secure the unit to the roof and offer support. These roof terminals are secure, long lasting and easy to install.

The roof terminals fit on any tile or slate roof, are suitable for roof pitches between 5° to 45° and feature malleable lead flashing to prevent water penetration.

## MODELS

Colours	Sizes available
Slate	Ø125 mm to Ø630 mm
Terracotta	Ø125 mm to Ø630 mm
