

## Model. RCBO20TA

Compact Single Module RCBO - A Type, 20A, 30mA

## Features & Benefits

- · An economical solution for residential applications
- Top and bottom line load compatible for easy installation
- Suitable for AC and DC and insulated openings for easy busbar installations
- Narrow module design, allows for more RCDs/MCBs to be installed in the one enclosure

## Safety Information

IMPORTANT - Before undertaking any work on or maintenance of fitting:-

- Switch off power supply and allow sufficient time to cool before handling
- Do not dispose of decommissioned fitting in household waste
  Dispose of fitting in the appropriate section of your local civic amenity site or recycling centre only

## **Technical Specifications**

| General Information     |                                      |
|-------------------------|--------------------------------------|
| Product Colour/Finish   | Grey                                 |
| Electrical              |                                      |
| Rated Voltage           | 230 - 240V                           |
| Frequency (Hz)          | 50/60Hz                              |
| Sensitivity             | 30mA                                 |
| Terminal Capacity (2mm) | Up to 35mm <sup>2</sup>              |
| Performance Data        |                                      |
| Specifications          | IEC/EN 61009                         |
| AMPS                    | 20Amp                                |
| Poles                   | Single                               |
| Type                    | В                                    |
| Breaking Capacity       | 6kA                                  |
| Approvals               | RoHS, CE                             |
| Construction            |                                      |
| Weight                  | 0.180Kg                              |
| Warranty Years          | 1Yr                                  |
| Body Material           | Acrylic                              |
| Others                  |                                      |
| Applications            | Domestic and commercial applications |
|                         |                                      |
