

External Pedestrian Cable Protector - 2 Channel

Product Code:	0603017
Product Category:	Traffic Management
Revisited Date:	30/09/2024

Description:

The Cable Ramp is a quick and cost-effective solution to keep cabling safe from vehicles and pedestrians. Reduce trip hazards and risk of slips, falls and electrocution on site with cable ramps. The ramps provide effective cable protection that allows free and easy movement for pedestrians and heavy plant and machinery.

Product Specification & Details

Material	Rubber & Plastic Cover
Colour	Black/Yellow
Size	990mm (L) x 240mm (D) x 50mm (H)
Channel Size	32mm x 32mm
Loading Weight	10 Tonne
Weight	7kg
Product Packaging	1pc Per Carton
Pallet Quanty	60pcs

Further Information:

Please be aware that the information is given in trust and is based on the latest knowledge known by Rhino Distribution. Whilst all aspects have been covered to ensure the contents of this datasheet are up to date at the time of handover, please be advised that products, techniques and codes of Practice are under constant review and are likely to change at any moment, up to date information would be available on request. Rhino Distribution will not accept responsibility for the application of products, and therefore no claims will be considered, where the manufacturer's instructions have not been followed.
